

"The clinical expertise we bring to patient care is the primary reason health care professionals entrust us to care for their patients. We take great pride in the quality healthcare we provide, yet we believe each patient's successful recovery is based on a number of factors. As a result, we have developed specialty services that bring together physician specialists, nurses and therapists to more effectively treat post-surgical patients and those recovering from traumatic events such as strokes or heart attacks. And that's why we're focused on creating a welcoming, comfortable and pleasant environment for patients and their families. Because we're treating a whole person, not just an ailment."

SALLY KAUFMANN, MS,OTR/L
ShortStay Program Director

Genesis HealthCareSM

We understand care, we practice compassion.

GENESIS CARELINE: 866-745-CARE

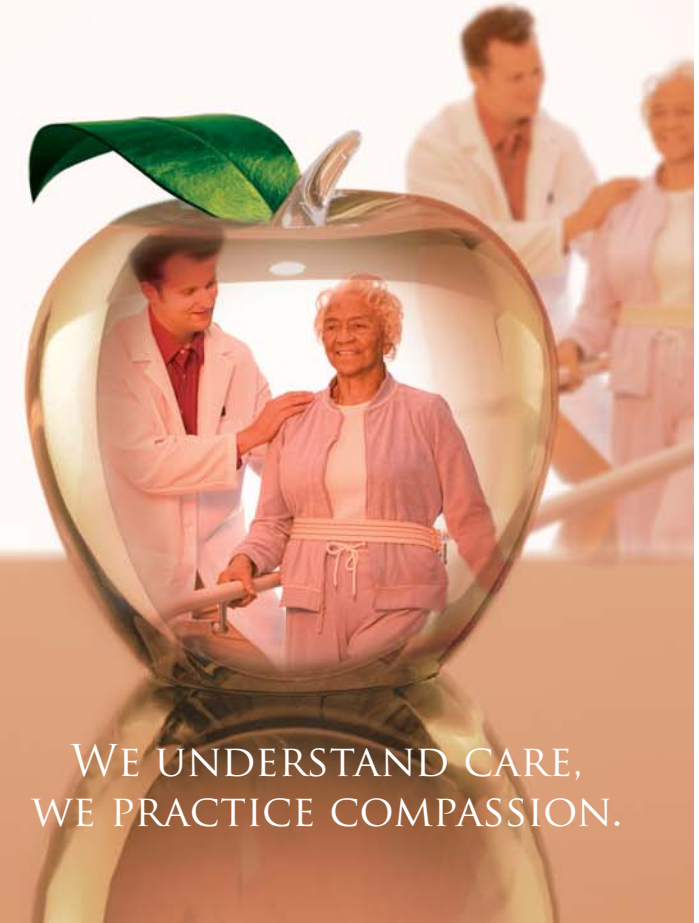

At critical life moments, you need a company you can trust and individuals you can count on. Whether healing from an acute situation or making a life transition, we're as close as you need us to be. Our Skilled Nursing Centers provide ShortStay Care, LongTerm Care, and Specialized Dementia Care (Homestead)*, while our Assisted Living Communities provide comprehensive Assisted Living Services. At Genesis HealthCare we offer our patients and residents outstanding clinical care, delivered by highly skilled practitioners in a warm and comfortable setting.

Call us to learn more about locations providing Specialized Dementia Care (Homestead).

Genesis HealthCare - *Speeding your path from hospital to home.*

Our ShortStay Services act as a caring bridge to your return home. We're focused on your speedy recovery and making you comfortable so that your recuperation will be as smooth as possible. We're here for your family as well, making all of you a part of the recovery process and bringing you into the decision-making about your care. We're eager to see you return home and get back to the daily activities and routines you enjoy.

Quality Clinical Programs for Accelerated Outcomes

The staff members caring for our ShortStay patients work closely to understand post-hospitalization needs and will collaborate with personal physicians to provide a seamless continuum of care that will support your successful recovery. We offer access to clinical specialists and a number of specialty services designed to bring a team approach to your care.

Depending on the Center, these include but are not limited to pulmonary, orthopedics, stroke, dialysis, cardiac, geriatric and vascular care programs. Our Centers are supported by clinical consultants who ensure that we provide our staff with continuous training and education to accommodate a wide variety of patients with individual care needs. We also offer high-quality rehabilitation service to hasten your ability to perform daily living activities and to speed your progress.

Professional Staff Dedicated to Your Quick Recovery

Our External Care Coordinators (ECC) are licensed nurses and healthcare professionals who will be helping you and your family to identify the right Genesis HealthCare Center to meet your medical and personal needs. They are the first in a line of quality staff focused on delivering clinical excellence with care and

compassion. They're here to support you and your family, providing information about your care and educating you about the next steps of your recovery.

Designed to Make Your Stay Enjoyable

We know you've been through a lot. Each ShortStay environment offers a warm family atmosphere to support your emotional as well as physical recovery. Our comfortable rooms and lively dining and common areas bring a little bit of home to your stay. A number of amenities may be available, including TV, telephone and beauty salon/barber services. Yet we believe that people are at the heart of the care we deliver. Each and every person delivering ShortStay Services, from the physicians and nurses to the receptionist and housekeeping staff is focused on your recovery.
