Mountain View Center would like to welcome and bring back our past rehabilitation patients, their families, and the caring people that advanced their recovery. This Rehab Reunion is to celebrate our many years of positive outcomes related to our rehabilitation services and features refreshments and the opportunity to reflect, remember and reunite.

The rehabilitation unit of Mountain View Center provides skilled nursing, short-term medical and rehabilitative care, designed to ensure a comprehensive continuum of care. Patient Care Teams are focused on implementing each patient's personalized care plan to facilitate his or her recovery and return home.

**We look forward to seeing you!**
